% OF WASTE STREAM RECYCLED _____

(Calculated by dividing Total Tons recycled by Total Municipal Waste Generated and multiplying the result by 100)

Commercial, municipal and institutional establishments may participate through the municipality in the Performance Grant Program authorized in Section 904 of Act 101. Under this program, grants may be awarded to the municipality upon application based on the total tonnage of materials recycled. In order to receive a pro rata share of these grant funds (should the municipality choose to apply), the establishment must report the actual tonnages of the various materials recycled, must submit weigh slips and/or other documentation that supports the tonnages cited in the report, and must sign the agreement below.

_____, located at _____

_____, desires to participate in the Performance Grant

program established under the auspices of Act 101 for the calendar year_____.

_____   _____

Name of Establishment   Official Signature, Title

                                                                    _____

                                                                    Date

* *

Conversely, such establishments may permit the municipality to claim the portion of the

grant attributable to their tonnages by signing the agreement below.

_____, located at _____

_____, agrees to permit the Township of Scott to

include the tonnage of materials recycled from its place of business in the application for

a Performance Grant authorized by Act 101 for calendar year _____.

_____   _____

Name of Establishment   Official Signature, Title

                                                                    _____

                                                                    Date
