Published by the Scott Township Board of Commissioners • 2023

FEMA announced that all COVID-19 incident periods will close on May 11, 2023.

FROM THE TOWNSHIP MANAGER

To the Residents of Scott Township:

This issue of Scott Topics is filled with upcoming events and information that is useful for every resident.

Looking into 2023, we have several exciting projects ahead of us.

We recently received four Local Share Account Grants totaling \$1,281,540.00. These four grants consist of increasing the salt storage shed capacity, a new street sweeper, Route 50 Storm Sewer Improvements, and North Wren Sanitary Sewer Improvements.

We received a Sinc-Up Grant for signal upgrades along Route 50. We also received a PRP Improvements Project grant from the Re-development Authority of Allegheny County in the amount of \$200,000 for stormwater improvements.

The Township Pool is getting a splash pad and it should be completed for the 2023 pool season. We do not anticipate it being ready for opening day, but we do anticipate it being open sometime in June, or July at the latest. We have also received funding to install a chair lift at the pool building.

The Township was again awarded Banner Community status in 2023 through the Allegheny League of Municipalities. Scott Township earned this designation by modeling ourselves as a community committed to sustainable practices, intergovernmental co-operation, sound fiscal management, and proactive communications to engage community stakeholders.

This issue of the Scott Township News will focus on upcoming events, and usual seasonal issues, as well as provide you with some useful information regarding the most recent legislation of general interest to our Scott Township residents. I hope this issue of the newsletter is both informative and helpful to you.

Denise H. Fitzgerald
Township Manager

SCOTT TOWNSHIP POLICE DEPARTMENT

Serving Scott Township and Rosslyn Farms

MATTHEW PODSIADLY, CHIEF OF POLICE

If you're certain that you have a non-emergency and just need information, call 412.279.6911. Calling this number will connect you to a police officer in your area.

The Scott Township Police Department is currently comprised of 22 sworn officers and three civilian employees. This total includes the Chief of Police, five Sergeants, fourteen Patrol Officers, two Detectives, the police secretary and two part-time school crossing guards. In addition to their regular duties, there are also special assignments within the police department. There is an officer assigned permanently to the Chartiers Valley Intermediate School as a School Resource Officer and one officer assigned to a traffic unit to focus on traffic concerns. Additionally, several officers have special assignments in cooperative roles with other departments through SHACOG. Two officers are assigned to the CIRT Team, one officer is assigned as an accident reconstructionist, and one officer is assigned to the ceremonial unit. These officers respond when the need for their expertise arises and for required training.

The Chief would also like to remind residents and visitors of several items that cause frequent cause for concern of the police department:

- Lock your vehicles!!! The police department has handled countless reports of unlocked vehicles entered and items stolen. Several vehicles were also stolen in this manner.
- Be cognizant of overnight parking regulations on local streets. Officers will issue citations to those in violation. If a special need arises to park on the street overnight, contact the police department for permission.
- Parking in Glendale- the police department recognizes the challenges of parking in the Glendale neighborhood. When you must park on the sidewalk, only do so partially so as not to obstruct the passage of pedestrians or those using wheelchairs or similar mobility devices. That said, **DO NOT PARK ON THE SIDEWALK AT ALL ON CAROTHERS AVENUE.**
- No dogs are permitted in the Township parks, please leave your furry friends at home.
- New soliciting regulations went into effect in January of 2023 with the adoption of Ordinance #1680-23. We will be compiling a "do not knock" list for residents who wish to not receive soliciting visitors. Check the Township website in the very near future for details on how to add your address.
- Last, but certainly not least, **IF YOU SEE SOMETHING, SAY SOMETHING.** The police department is here to serve the community that is near and dear to all our hearts. Our community partners are the residents, business owners, and visitors who make Scott Township the wonderful place that it is. If you see something out of the ordinary, don't hesitate to call. Oftentimes, we find out after the fact that things were seen or heard but never reported, or not reported in a timely manner that could assist in an investigation.

In closing, the Police Department takes great pride in our relationship with the community. To further that relationship, we will be launching a Citizen's Police Academy (CPA) for residents of the township over the age of 21. The CPA will be an 8-week program limited to 25 attendees that will give residents an opportunity to learn about the job we do and some of the resources we utilize. This will be a fun and rewarding experience for the academy members, as well as the officers involved. We will advertise more details, registration instructions, and requirements soon! Check our Facebook page and the Township website frequently to make sure you don't miss out!

Please leave your furry friends at home.

On September 14, 1971 the Township of Scott passed an Ordinance (#823), prohibiting the walking of dogs or the bringing of dogs into the Township Parks and Parklets.

Thank You!

CODE ENFORCEMENT IS VITAL TO COMMUNITY DEVELOPMENT

Did you know that Scott Township administers and enforces Pennsylvania's statewide building code, generally known as the Uniform Construction Code (UCC)? Enforcement of the UCC actually began in April 2004. As of Feb. 14, 2022 the applicable codes are the 2018 International Codes issued by the International Code Council, and the provisions amended by the UCC Review & Advisory Council.

So, what does this mean to you as a home owner wanting to make improvements to your property?????

Building permits are required for all improvements regulated by the Pennsylvania Uniform Construction Code. Zoning Permits are required for all work regulated by the Scott Township Zoning Ordinance.

Spring cleaning is right around the corner; please keep in mind that it is unlawful to have unsightly debris or junk in your yard or around your property. It is also illegal to have an unregistered or uninspected vehicle(s) on your property.

Construction bags or dumpsters can be placed on your property for clean up or a construction project for a maximum of **3 days** or for a maximum of **30 days** when a building permit is issued. PODS are a convenient way to pack your belongings for storage elsewhere. PODS are also permitted to remain on your property for a maximum of **3 days** or for a maximum of **30 days** when a building permit is issued. You **cannot** use trailers for storage on your property. Bags, Dumpsters, or PODS are not permitted in any roadway area.

Rental Property Inspections

Under PA Act 21, effective June 1, 2015 owners of all rental properties will be required to install carbon monoxide detectors and obtain a rental inspection. Rental life safety inspections are required each time a new tenant moves in and an annual Certification is required for all rental property in the Township which includes a fee of \$25.00 per dwelling unit.

WORK THAT REQUIRES A ZONING PERMIT, BUT NO BUILDING PERMIT

- One-story detached accessory structures used as tool and storage sheds, greenhouses, playhouse, detached private garage and similar uses, provided the floor area does not exceed 1000 square feet and they are accessory to a single-family or two-family dwelling.
- Retaining walls 4'-0" or less in height, measured from the lowest level of grade to the top of the wall, unless supporting a surcharge (such as, but not limited to, a slope, driveway, patio or swimming pool) or impounding Class I, II or IIIA liquids.
- Sidewalks, parking pads, patios, and driveways not more than 30 inches above adjacent grade, and not over any basement or story below grade and not part of an accessible route.
- Fences 6 feet or less in height.
- Uncovered decks where the deck floor is 30 inches or less above grade and are accessory to a single-family or two-family dwelling.
- Carports (open on at least three sides and not attached to the dwelling)

Building permits **MUST** be obtained **30 days** prior to the project start date and a completed Scott Township Verification of Tax Payments form **MUST** also be included in the application. Applications are available on the Scott Township website under the Code Enforcement tab. All submittals are required to include the application/building permit fee. Incomplete submittals will not be processed.

WORK THAT DOES NOT REQUIRE A PERMIT

- Window awnings that are attached to a single-family dwelling, two-family dwelling, or Group U occupancy structure, are supported by an exterior wall, and do not project more than 54 inches from the exterior wall.
- Movable cases, counters and partitions that are not over 5 feet 9 inches in height.
- Painting, papering, tiling, carpeting, cabinets, counter-tops and similar finish work.
- Window and door replacement that does not require structural modifications to the wall or framing.
- Prefabricated swimming pools accessory to a single-family or two-family dwelling that are less than 24" deep, do not exceed 5,000 gallons and are installed entirely above grade.
- Installation of aluminum or vinyl siding onto an existing residential or an existing commercial building.
- Alterations and repairs to residential buildings which do not make structural changes or changes to means of egress.

Please note that the Allegheny County Health Department's Plumbing Division inspects and permits all new or modified residential and commercial plumbing installations to assure compliance with the Health Department's Plumbing Code. Scott Township requires proof of inspection and compliance prior to issuing any Occupancy Permits for all projects that require plumbing permits.

Garbage Collection Reminder

Please be reminded that garbage containers or garbage bags may be placed at the curb side no earlier than 5:00 pm on Sunday evening and must be removed no later than 9:00 pm on Monday evening. Garbage containers shall be stored in the rear of the property within five (5) feet of the primary structure or garage or an accessory structure, including a shed, to be out of sight when viewed from the front of the lot or street. Garbage containers may be stored in the front of the home. In such cases, garbage containers shall be concealed from view from the front of the lot or street with shrubs, trees or by other appropriate measures. Please see the Scott Township website for the 2022 garbage and recycling schedule.

Parking Pads & Driveways

All parking pads and driveways must have a valid permit and must be constructed using either concrete, asphalt, or an approved hard surface. Scott Township does not permit gravel parking pads, gravel driveways, parking pads parallel with the roadway, or parking in the lawn area.

PEST ALERTS

Outdoor Recommendations:

- Avoid having a bird feeder.
- Keep outdoor grills and cooking areas clean.
- Keep firewood off the ground and as far away from structures as possible.
- Maintain at least a 2-foot space between bushes and shrubs.
- Clean up after your dog daily.
- Avoid keeping compost mounds or debris piles.

Indoor Recommendations:

- Opt for garbage bins and compost containers with a top that seals tightly.
- Do not leave pet food or water out overnight.
- Repair leaky pipes.
- Maintain attic, crawl spaces, and cabinets.

For information pertaining to recently adopted Ordinances & Resolutions please visit the Township website at www.scott-twp.com

BOWER HILL VFD

Non-emergency number is 412-221-3497 • Fax number is 412-221-3990
e-mail address is bhvfd255@yahoo.com • www.bowerhillfire.com

Remember if you have a fire or medical emergency please call 9-1-1.

Bower Hill VFD is one of 3 Fire Departments (Glendale and East Carnegie are the other departments serving Scott Township) that serve the over 17,000 Scott Township residents and businesses.

Bower Hill is a volunteer fire department with approximately 40 members who respond to calls for assistance from the residents and businesses, regardless the time of day.

It's a family tradition – Come join us and start your new family tradition!

Many of our members are part of firefighting families with some of them being 4th and 5th generation firefighters. Our members have gone on to make the fire service a career in many parts of the country such as Maryland, Tennessee, Virginia, Washington DC. and others staying “close to home” such as the City of Pittsburgh, Dormont, and North Huntingdon. If you or a family member might be interested in joining us, stop down on any 2nd thru 4th Wednesday of each month to observe us training. We have several categories of Membership:

- REGULAR** - anyone 18 over interested in firefighting.
- JUNIOR** - (ages 14-18) interested in firefighting.
(Some get training in high school programs)
- FRIEND** - Not into firefighting but still want to help with fund raising and public service events this one is for you

UPCOMING EVENTS – Come Join us.

1. We are planning on continuing our Craft Fair (Please check our website for further information/dates),
2. Annual Golf outing is scheduled for Sunday, September 24, 2023, at the Club at Shadow Lakes,
3. First Annual Scott Township Fire District BBQ Cook Off/Concert in the Park – Saturday, August 19, 2023, at the Scott Township Park
4. Open House on Sunday, October 8, 2023, at Bower Hill Fire Department from Noon until 4:00 M
5. Santa visiting our neighborhoods in December,
6. We also provide Community Outreach Programs, including Touch-a-Truck and other programs as well as participating in the Township scheduled events such as Public Safety Day and Octoberfest.

HOW CAN YOU HELP US HELP YOU?

Here are some ways that you can support Bower Hill Volunteer Fire Department so that we can continue to provide fire service to the residents and businesses of Scott Township.

1. UNITED WAY – Bower Hill VFD is a member of the United Way & our United Way Donor Number is 2341.
2. BUY A BRICK – We still have spaces in our memorial garden for additional bricks. This is a way to support Bower Hill VFD but to add to your family history in Scott Township. Please email us at bhvfd255@yahoo.com and we will send you out the information on buying a brick.

East Carnegie Volunteer Fire Department

305 Duncan Way
Scott Township, PA 15106

Non-Emergency: 412-276-7050

Glendale Hose Company #1

541 Carothers Avenue
Scott Township, PA 15106

Non-Emergency: 412-276-4611

The Department of Public Works

2600 Old Greentree Road; Scott Township, PA, 15106

Director of Public Services - Thomas Kelley

(412) 276-4656

Public Works Foreman - Bert Smelko

The mission of the Department of Public Works is to provide the residents of Scott Township with safe and well maintained transportation, recreation, sanitation and storm water infrastructures. Our maintenance services are directed towards enhancing and improving the conditions of our roads, bridges, park facilities, public buildings, and sewage conveyance systems. The department's services are augmented through contracts to repair or replace deteriorated or malfunctioning sewage assets, and an annual roadway paving project. In the spring and summer our efforts are concentrated on roads and parks maintenance as well as catch basin and sewer line cleaning. In the fall the department provides community wide leaf and branch pickup programs. In the winter the department's assets are directed towards snow and ice removal from Township streets. Currently we are working with the Township Engineer to implement a geographical information system to assist us in managing our human, material and infrastructure assets.

In the coming months the Township of Scott will provide an outline on the website for the 2023 Roadway Improvements Projects. When the construction season starts please go to the website for updates.

Please reference page 10 for the Scott Township's 2023 Leaf waste schedule.

Snow Removal: In accordance with Ordinance #1486-01, residents are reminded that it is an offense to deposit snow or ice on a roadway. Snow pushed or blown onto a road creates a hazard to both vehicles and snow removal equipment and can interfere with water flow in ditches.

- Keep parked cars off the street during snowfalls. Snow removal crews need to be able to remove snow from the entire roadway.
- Be patient during a heavy snowfall. The snow removal plan prioritizes major roads and streets as well as hazardous intersections. The crews will clear your street as quickly as possible.
- If you notice a hazardous section of Township road, please report it to the Police Department or the Township Administration Office.

Safe Digging: What is that? - We often receive calls from residents inquiring about lines painted on the streets, curbs and grass, and marker flags stuck in the ground. The line painting and flags are placed by the Public Works Department and the public utilities companies and represent the locations of buried utility lines. In 1974 the Commonwealth of Pennsylvania adopted the Underground Utility Line Protection Act (PA Act 287) to protect the public health and safety by preventing excavation or demolition work from damaging underground lines used in providing electricity, communications, gas, oil delivery, oil product delivery, sewage, water or other service. In Pennsylvania there are over 25,000 miles of underground lines and pipes. The Township alone maintains more than 50 miles of sanitary sewage lines and 25+ miles of storm water lines. The Public Utility Commission reported that there are over 6,000 incidents per year of contractors and homeowners striking and damaging buried utility lines. Many of these incidents result in injury and death and most are preventable. As a facility owner, The Township's Public Works Departments responds to every one call ticket filed in the Township by contractors, Public Utility Company and residents. Last year we marked and cleared over 900 one call tickets filed in the Township.

If you or your contractor plans to use power equipment to dig on your property make sure that you call PA One Call at 811 before you start. Digging in the marked areas should be avoided. If you smell natural gas or break a water line call 911 immediately. To find out more about PA One Call visit their website at: <https://www.pacall.org/>.

Dye Testing Requirements: If you are planning to sell, refinance, transfer or assign ownership of your home, you will need to have a Dye Test performed before the Township will release a Municipal No Lien Letter. The Municipal No Lien Letter is prepared by the Tax Office and certifies that Township and School District property taxes and sanitary sewer fees have been paid.

Federal, state and county regulatory agencies require local municipalities to adopt and fund plans and improvements to reduce and eventually eliminate the flow of stormwater into sanitary systems. A portion of the Townships plan is outlined in Ordinance NO. 1427-97 of 1997.

What is a Dye Test? Dye testing involves placing a non-staining water soluble dye tablet in the drain or downspout of your property and flushing it with water. The manhole located on the Township's sanitary sewer line that serves your property is then examined for the appearance of traces of dyed water. A dye test is used to verify if the gutters, driveway drains, yard drains, or other stormwater collection devices are connected to a sanitary sewer that is intended to carry raw sewage only. This type of connection is not allowed and must be fixed before the sale of a property. An approved dye test is good for two years. Refinancing requires a dye test.

How do I arrange for a Dye Test? You must contact the Township to obtain an Application and Letter of Compliance (Application). To obtain the required Application property owners must call the Compliance Officer at 412-276-5300 ext. 218 or submit an online request available at Dye Test Application | Scott Township. Once the request has been received the Compliance Officer will prepare Section 1 of the Application and provide information for Section 2 on the location (including a map) of the manhole that the plumber will monitor during the dye test. After 5 to 7 business days the property owner or a licensed plumber who will be performing the dye test may pick up the Application on the second floor of the Township Building, 301 Lindsay Rd., Carnegie PA 15106.

What is a "swale"? and why should I care? Well, if you live in an area where stormwater poses a threat to your home then you either already have a swale or could probably use one. In short a "swale" is a shallow channel with vegetation covering the side slopes and the bottom, that collect and slowly convey runoff flow to downhill discharge points. A swale differs from a drainage ditch in that it is constructed to collect and slowly release water into the surrounding landscape whereas a drainage ditch is constructed to carry water quickly away. Swales are ecofriendly and trap particulate pollutants (suspended solids and trace metals), promote infiltration, and reduce the flow velocity of stormwater runoff. The Scott Public Works Department routinely inspects and performs maintenance services on seventeen (17) drainage swales located on Township easements. Routine inspection and maintenance are performed. It is important to consider that a thick vegetative cover is needed for swales to function properly. Usually, swales require little more than normal landscape maintenance activities such as irrigation and mowing to maintain to remove leaves, branches, and sediment buildup. If proper drainage slopes are not implemented and maintained swales can become a nuisance due to mosquito breeding in standing water. However, water standing in the swale for up to 72 hours following a storm event is normal and should be expected. The application of fertilizers and pesticides should be minimized and conducted by appropriate professionals.

If you have a drainage swale on your property, it's your responsibility to maintain it so that it functions properly. Improperly maintained drainage swales interferes with proper drainage flows that can result in property damage caused by slope failure, erosion, or excess storm-water runoff.

For detailed on swale and other stormwater management best management practices consult the Pennsylvania Stormwater Best Management Practices at the following link <http://www.depgreenport.state.pa.us/elibrary/GetFolder?FolderID=4673>

Visit www.scott-twp.com for construction project updates.

Scott Township residents vote at the following locations:

Ward 1.....	District 1 & 2.....	Polish American Citizens Club - 811 Paul St.
Ward 2.....	District 1 & 2.....	Scott Park Community Room - 2 Park Dr.

Stormwater Pollution Solutions

Residential

Recycle or properly dispose of household products that contain chemicals, such as insecticides, pesticides, paint, solvents, and used motor oil and other auto fluids.

Don't pour them onto the ground or into storm drains.

Lawn care

Excess fertilizers and pesticides applied to lawns and gardens wash off and pollute streams. In addition, yard clippings and leaves can wash into storm drains and contribute nutrients and organic matter to streams.

- ◆ Don't overwater your lawn. Consider using a soaker hose instead of a sprinkler.
- ◆ Use pesticides and fertilizers sparingly. When use is necessary, use these chemicals in the recommended amounts. Use organic mulch or safer pest control methods whenever possible.
- ◆ Compost or mulch yard waste. Don't leave it in the street or sweep it into storm drains or streams.
- ◆ Cover piles of dirt or mulch being used in landscaping projects.

Septic systems

Leaking and poorly maintained septic systems release nutrients and pathogens (bacteria and viruses) that can be picked up by stormwater and discharged into nearby waterbodies. Pathogens can cause public health problems and environmental concerns.

- ◆ Inspect your system every 3 years and pump your tank as necessary (every 3 to 5 years).
- ◆ Don't dispose of household hazardous waste in sinks or toilets.

Auto care

Washing your car and degreasing auto parts at home can send detergents and other contaminants through the storm sewer system. Dumping automotive fluids into storm drains has the same result as dumping the materials directly into a waterbody.

- ◆ Use a commercial car wash that treats or recycles its wastewater, or wash your car on your yard so the water infiltrates into the ground.
- ◆ Repair leaks and dispose of used auto fluids and batteries at designated drop-off or recycling locations.

Pet waste

Pet waste can be a major source of bacteria and excess nutrients in local waters.

- ◆ When walking your pet, remember to pick up the waste and dispose of it properly. Flushing pet waste is the best disposal method. Leaving pet waste on the ground increases public health risks by allowing harmful bacteria and nutrients to wash into the storm drain and eventually into local waterbodies.

Education is essential to changing people's behavior. Signs and markers near storm drains warn residents that pollutants entering the drains will be carried untreated into a local waterbody.

Residential landscaping

Permeable Pavement—Traditional concrete and asphalt don't allow water to soak into the ground. Instead these surfaces rely on storm drains to divert unwanted water. Permeable pavement systems allow rain and snowmelt to soak through, decreasing stormwater runoff.

Rain Barrels—You can collect rainwater from rooftops in mosquito-proof containers. The water can be used later on lawn or garden areas.

Rain Gardens and Grassy Swales—Specially designed areas planted with native plants can provide natural places for

rainwater to collect and soak into the ground. Rain from rooftop areas or paved areas can be diverted into these areas rather than into storm drains.

Vegetated Filter Strips—Filter strips are areas of native grass or plants created along roadways or streams. They trap the pollutants stormwater picks up as it flows across driveways and streets.

Commercial

Dirt, oil, and debris that collect in parking lots and paved areas can be washed into the storm sewer system and eventually enter local waterbodies.

- ◆ Sweep up litter and debris from sidewalks, driveways and parking lots, especially around storm drains.
- ◆ Cover grease storage and dumpsters and keep them clean to avoid leaks.
- ◆ Report any chemical spill to the local hazardous waste cleanup team. They'll know the best way to keep spills from harming the environment.

Erosion controls that aren't maintained can cause excessive amounts of sediment and debris to be carried into the stormwater system. Construction vehicles can leak fuel, oil, and other harmful fluids that can be picked up by stormwater and deposited into local waterbodies.

- ◆ Divert stormwater away from disturbed or exposed areas of the construction site.
- ◆ Install silt fences, vehicle mud removal areas, vegetative cover, and other sediment and erosion controls and properly maintain them, especially after rainstorms.
- ◆ Prevent soil erosion by minimizing disturbed areas during construction projects, and seed and mulch bare areas as soon as possible.

Construction

Agriculture

Lack of vegetation on streambanks can lead to erosion. Overgrazed pastures can also contribute excessive amounts of sediment to local waterbodies. Excess fertilizers and pesticides can poison aquatic animals and lead to destructive algae blooms. Livestock in streams can contaminate waterways with bacteria, making them unsafe for human contact.

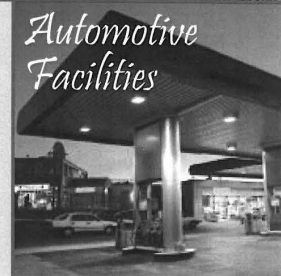

- ◆ Keep livestock away from streambanks and provide them a water source away from waterbodies.
- ◆ Store and apply manure away from waterbodies and in accordance with a nutrient management plan.
- ◆ Vegetate riparian areas along waterways.
- ◆ Rotate animal grazing to prevent soil erosion in fields.
- ◆ Apply fertilizers and pesticides according to label instructions to save money and minimize pollution.

Forestry

Improperly managed logging operations can result in erosion and sedimentation.

- ◆ Conduct preharvest planning to prevent erosion and lower costs.
- ◆ Use logging methods and equipment that minimize soil disturbance.
- ◆ Plan and design skid trails, yard areas, and truck access roads to minimize stream crossings and avoid disturbing the forest floor.
- ◆ Construct stream crossings so that they minimize erosion and physical changes to streams.
- ◆ Expedite revegetation of cleared areas.

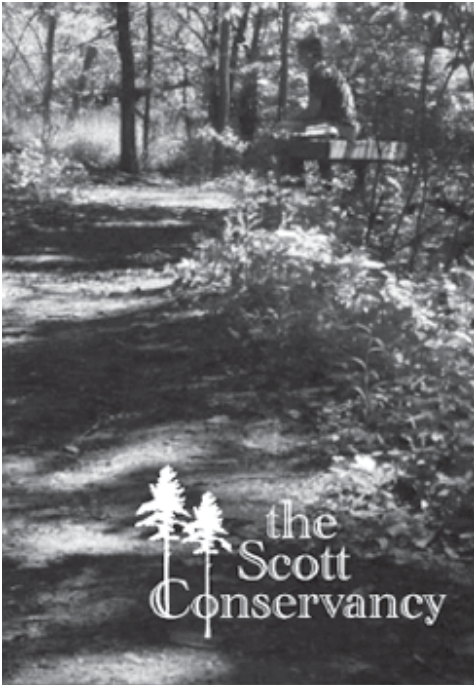

Automotive Facilities

Uncovered fueling stations allow spills to be washed into storm drains. Cars waiting to be repaired can leak fuel, oil, and other harmful fluids that can be picked up by stormwater.

- ◆ Clean up spills immediately and properly dispose of cleanup materials.
- ◆ Provide cover over fueling stations and design or retrofit facilities for spill containment.
- ◆ Properly maintain fleet vehicles to prevent oil, gas, and other discharges from being washed into local waterbodies.
- ◆ Install and maintain oil/water separators.

The Scott Conservancy

Home to a natural woodland area with walking trails.

If you like to watch birds, experience nature with a brisk walk in the woods, or just want to take your dog out for some morning exercise, the Kane Woods Nature Area located on Scrubgrass Road is the place to go. The nearly 80-acre nature preserve nestled in the heart of Scott Township is available for all residents to enjoy. A series of trails guide residents through the forest and meadows where they can see oak trees, a meandering stream, and plenty of wild turkey and other woodland birds. Scott Conservancy volunteers maintain the Kane Woods for the enjoyment of the community and to preserve a woodland environment in the heart of our neighborhood. We welcome you to our trails and nature area and hope you will consider volunteering with the Scott Conservancy or making a donation to support the mission of preserving Scott Township's green space.

Three parking lots are available for visitors: A small one is the Whiskey Point Trailhead located at 1501 Main Street directly across the Veteran's Memorial Bridge. The second, larger parking lot is the Scrubgrass Run Trailhead at 1459 Scrubgrass Road, and the third is the Jewish Community Center parking lot on Kane Blvd. All three areas provide easy access to the trail network.

Celebrating its 30th anniversary in 2019, the Scott Conservancy is comprised of local residents who love Scott Township and its wild and scenic nature areas. The Conservancy is managed by volunteers without paid staff or professional fundraisers. All the money raised by donations go right back into the community to improve the nature area and maintain the trails.

Please visit ScottConservancy.org or call us to learn about Conservancy activities and how you can get involved, our phone number is 412-276-5300 x301. We maintain an Apiary and sell our local, raw honey as a fundraiser. Additionally, we hold an Annual Ducky Race 50/50 Raffle at Scott Pool on the Fourth of July as our biggest fundraiser of the year. We are thrilled to provide you with information about the Scott Conservancy, and we have a wonderful brochure and a trail map of the Kane Woods Nature Area which can be found at the website along with our event calendar. See you on the trail!

*(May 29) and (NOV 23 & 24) - Held over one week due to Memorial Day and Thanksgiving Holiday.

Leaves can only be placed in 30-gallon compostable paper bags and tree trimmings are to be bundled and tied with twine in manageable 3' to 4' foot lengths. Each bag and/or bundle to be picked up should not exceed 40 pounds.

****Please contact the Scott Township Public Works Dept. at (412) 276-4656 if you need any additional information regarding your leaf and branch pick up. If you need to make special provisions for any additional accumulation of your leaf and branch waste outside of the current township pick up schedule, contact the number listed above and you will be given instructions and directions for special drop off locations near you. (Wood Waste Recycling: 43 Prestley Rd. Bridgeville PA 15017 Ph (724-695-1000)**

2023

Waste and Recycling Service Information

Dear Scott Twp. Resident,
Your community provides a comprehensive solid waste program designed to encourage recycling and waste reduction, reduce litter in our neighborhoods and ensure that waste is disposed of in an environmentally responsible manner. This guide includes various services that are available to residents. WM pledges to provide the high-quality service residents expect and deserve.

REGULAR CURBSIDE COLLECTION: Trash will be collected once every week on **MONDAY**. Recycling will be collected every other week, please see the calendar to identify your collection week. Place material at the curb after 6 p.m. on the prior day or before 6 a.m. on the scheduled collection day.

SERVICE INQUIRES: Residents should contact WM to report a missed pick up. A representative can be reached at 1-800-866-4460 or through live chat at www.wm.com. In the event of inclement weather, visit www.wm.com/alerts for updates, delays & cancellations.

HOLIDAY SERVICE: Please reference the calendar for observed holidays.

Does your trash and/or Recycling cart need a wheel replacement or a repair?

Contact: Bert Smelko, Public Works Foreman
412-276-4656

GUIDELINES FOR COLLECTION: Residents should use their provided trash cart for collection.

- Garbage should be properly secured in your provided cart. Additional garbage beyond what fits in the cart can be placed in bags or additional cans alongside the cart for collection.
- Residents must fill their provided cart first before placing material outside of the cart.
- Residents are permitted 2 bulk items per week. Bulk items include chairs, tables, couches, lamps, etc.
- Additional carts can be purchased directly from WM at a cost of \$85.00. To purchase an additional cart, residents should call WM.
- Grass clippings and weeds should be in plastic bags.
- Furniture items, appliances, household goods and disassembled children's swing sets (cut to 4-foot length) will be accepted at curbside.
- Carpet should be rolled and tied in lengths not to exceed 48 inches so that one person can lift.
- Empty paint cans and dried paint are acceptable. Paint can be dried by air drying or soaking up with newspaper or kitty litter. Lids should be left off.

EXCLUDED ITEMS:

- Building material may be picked up for a fee by contacting WM at 800-866-4460
- Hazardous Household Waste and Electronic Waste (including paint, thinners, cleaners, pesticides/herbicides, etc.) - see PA Resources Council website for county events (www.prc.org)
- Automobile parts including wheel rims and tires
- Trees, branches and bushes
- Ashes from furnaces and fireplaces
- Stones and dirt

APPLIANCES CONTAINING REFRIGERANT: WM will collect such items as refrigerators, freezers, air conditioners, dehumidifiers, water coolers, etc.; however, the item must have a sticker certifying that the refrigerant has been removed. If it does not have the sticker, it will not be picked up. It is unlawful for the contractor to dispose of these items containing refrigerant. When purchasing a new appliance, have the store dispose of the old appliance to save the cost of having the refrigerant removed.

AUTOMATED RECYCLING SERVICE: Residents will receive every other week curbside recycling collection. Please reference the calendar to identify your service week. Recyclables will be collected using automated collection trucks. Residents should use their provided recycling carts and recyclables must be placed loose in the cart. Material outside of the cart will not be collected. Carts must be placed three feet away from all objects, including your second cart, mailbox, car or trees. The lid opening should face the street with the wheels of the cart facing your house.

2023 RECYCLING PROGRAM INFORMATION: WM is asking your community to help combat recycling contamination. For programs to be successful, all participants must make an effort to practice good recycling habits.

- No plastic bags of any kind will be accepted. Place material loose in your recycling cart.
- Make sure you are only recycling plastic bottles, jugs and jars. Any other plastic shape must go in the trash.
- Glass is no longer accepted for curbside recycling – talk to your municipality about local drop off programs.
- Containers that held food should be rinsed free of food debris and liquid.
- Shredded paper is not accepted.

COMMUNITY DAY 2023 AT SCOTT PARK

Scott Township - 4th of July Activities

..... **Fireworks at 9:31 p.m.**

The pool will open at 11:00 a.m. on July 4th

Waterslide Races
 Splash Contest
 Inner Tube with Ribbons
 Rubber Ducky Race - Water Slide
 Money Hunt for K-4th
 Bicycle Drawing
 Pool Closes
 Pool Re-opens for Fireworks Display

Rubber Ducky Race

On the 4th of July the Conservancy will be selling 50/50 raffle tickets for the annual "Rubber Ducky Race" outside the pool area. Buy a ticket for \$5 and a duck with your ticket number on it will be entered into the race. Watch the ducks swim down the water slide and race across Scott Pool! Proceeds benefit The Scott Conservancy and will be used to maintain the Kane Woods Nature Area for community use. The race is open to all ages and is a fun way to show support for us. Hope to see you there and **may the best duck win!**

On the Small Ballfield...

Pre-T-Ball Games 8:30, 9 & 9:30 a.m.
 T-Ball Games - 10 (Girls) 10:30, 11 & 11:30 a.m.
 8u - Girls Game Noon
 8u - Boys Game 1:00 p.m.
 10u/12u/15u - Girls Game 2:00 p.m.
 10u - Boys Game 3:00 p.m.
 12u - Boys Game 4:00 p.m.

**Visit the Food & Game Booths
 in the Upper Park Area
 sponsored by
 Scott Township Organizations**

Enjoy a Special Night Time Swim

The pool will close at 6:00 p.m. and re-open at 7:00 p.m. This will provide the perfect place to watch fireworks, which will begin at 9:31 p.m. that evening, and enjoy pool side music from 7:00 p.m. to 10:00 p.m.! Balls and rafts will be permitted in the pool at this time. Admission for the night swim will be \$1.00. The admission price will be used to defray the cost of the fireworks.

SEASON PASSES will not be accepted.

SPECIAL THANKS...

To the following Scott Township businesses and residents for their generous contributions to the 2022 Fourth of July Fireworks display and our Community Day festivities. Please join us for our 2023 Community Day Festivities, and plan to stay for the SPECTACULAR FIREWORKS event at dusk. We know you will be proud and pleased with our Scott Township Community from beginning to SPECTACULAR end!

A. Petrelli & Sons, Slater Funeral Home, Lennon Smith Souleret Engineering, Inc., Glendale Hose Co. #1, C.W. Howard Insurance Agency, Caltronics, Dairy Queen, Carnegie Motors, Woltz & Wind Ford, Scott Conservancy, Tucker Arensberg, Chartiers Terrace Housing, Flynn Tires of PA, Inc.

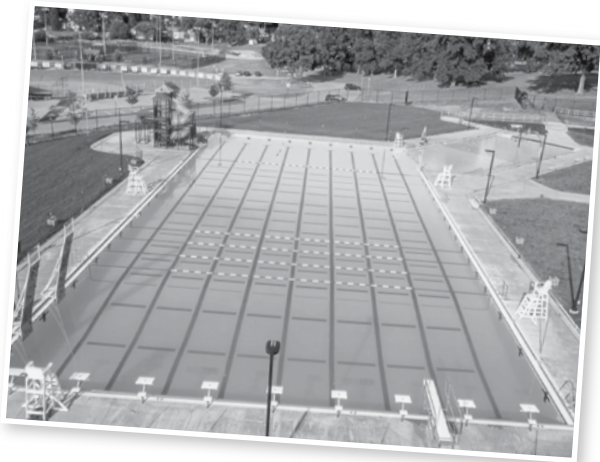

**A Big "THANK YOU!" from Scott Township to all the children
and adults for spending their summer at the pool!**
