

Waste Management has announced a pay-as-needed option to the communities contracted with them through SHACOG.

If you occasionally need to dispose of extra trash, like after a party or spring cleaning, and you normally don't produce enough waste to warrant an additional cart. Residents who have bagged trash that does not fit inside their provided cart can schedule a special collection on their designated service day through WM at 1-800-866-4460 and follow the prompts.

Special collections must be scheduled at least 48 hours before the resident's service day. The rate for the **special pick-up is \$6 per bag**. Residents will be limited to 20 bags or less. Please remember that an extra cart can be requested for an additional \$110 in 2024.

Requesting a Special Collection for Extra Bulk Items

Residents are permitted up to **two** bulk items per month to be collected during their designated bulk collection week.

Residents who have additional bulk waste that needs to be collected can schedule a special collection through WM by calling 1-800-866-4460 and following the prompts. Special collections must be scheduled at least 48 hours before a resident's service day. The rate for a special collection (not on your scheduled collection day) for bulk items is \$75 plus the bulk rate for each item being collected. To avoid the \$75 special collection fee, residents can schedule additional bulk items to be collected during their community's designated bulk collection week and only pay for the bulk rate of the item being collected.
